BIOGRAPHY

- Specialty: Structural Engineering
- Licensed Professional Engineer in Pennsylvania, Maine, Virginia, Florida, Ohio, New Jersey, and New York
- 23 years of professional experience
- MS, Structural Engineering, Pennsylvania State University,1990
- BS, Civil Engineering, Pennsylvania State University,1988

Todd Smeltz has served as structures unit manager or project manager on more than 80 structural design, design review, and bridge inspection projects. In his capacity as structural unit leader, he supervises teams of engineers, project managers, and sub-consultants; serves as the primary liaison between in-house, sub-consultants, and client staff; and coordinates permitting agencies and interdisciplinary work. He also has a proven ability to communicate clearly with clients, present engineering concepts at public meetings, and coordinate with outside consultants in the execution of design review work.
