BIOGRAPHY

- Specialty: Structural Engineering
- Licensed Professional Engineer in New York
- 13 years of engineering experience
- BS, Civil Engineering, SUNY at Buffalo, 1996

Jon DePlanché has experience in bridge inspection, load rating and analysis, load testing, rehabilitation and new design of bridges. He has worked with steel, pre-cast concrete, prestressed concrete, and fiber-reinforced polymer composite bridges. Jon has prepared bridge erection and demolition procedures for several projects and has assisted in various transportation and building projects.
