BIOGRAPHY

- Specialty: Civil Engineering
- Licensed Professional Engineer and Surveyor and Mapper in Florida
- LEED Accredited Professional
- 28 years of civil engineering and project management experience
- BS, Civil Engineering, University of Florida, 1985

Dana Gillette has served as a project engineer and project manager on public and private sector projects involving design; permitting; zoning; traffic engineering; utility design; construction observation; and permitting for water, sewer, drainage, and paving projects as well as surface water management and treatment. She actively supports engineering education by serving on the Florida Atlantic University civil engineering department advisory council, being a member of the board of trustees for the Florida Engineering Foundation, and chairing the Florida Engineering Society's Palm Beach Chapter scholarship committee.
