- Licensed Professional Surveyor in New York, Pennsylvania, South Carolina and New Hampshire
- 40-Hour HAZWOPER qualified
- 30+ years of professional engineering experience
- AAS, Survey Technology, ABET Accredited, SUNY Alfred 1986

David Standinger brings over three decades of high-level professional expertise to his position as Erdman Anthony's Geospatial Services Manager. He is well-versed in management of every aspect of major surveying projects, including proposal preparation, estimating, team selection and training, project implementation and management, supervision of final review, and client relations. David is also experienced in obtaining community buy-in for projects through presentations to town boards and other stakeholder groups. His work has included projects for major airports, supermarket chains, utility companies, telecommunications providers, municipal water systems, and many others. David was originally educated at the U.S. Army Field Artillery Training center, and served with the 101st Airborne Division from 1981-1983. He is a full member in the New York and South Carolina Associations of Professional Land Surveyors, and has served as both the Director and Treasurer of the Genesee Valley Land Surveyors Association.
