BIOGRAPHY

- Licensed Professional Engineer in New York, Pennsylvania, and Massachusetts
- 15 years professional engineering experience
- BS, Mechanical Engineering Technology, Rochester Institute of Technology, 1998

Mike came to Erdman Anthony in 2004 and became the Core Business Leader of the Facilities Engineering and Design Services division in 2013. He has extensive experience designing HVAC systems for private, commercial, industrial, health-care, and educational facilities. Mike has a special interest in energy-efficient and sustainable design practices and is a LEED Accredited Professional as well as a Certified Energy Manager (CEM). He is a member of the following professional organizations:

- American Society of Heating and Air Conditioning Engineers (ASHRAE),
- Association of Energy Engineers (AEE),
- United States Green Building Council (USGBC),
- National Council of Examiners for Engineering and Surveying (NCEES).
