BIOGRAPHY

- Licensed Professional Engineer in New York
- LEED AP
- Certified Energy Manager
- Over 20 years of professional experience
- BT, Energy Engineering Technology, Rochester Institute of Technology, 1991
- AAS, Air Conditioning Engineering Technology, SUNY Canton, 1988

As a LEED AP and a Certified Energy Manager, Jerry Young's experience has included a special focus on Energy Engineering. His 20+ years in the field have included many projects in the Albany region—where he has overseen the mechanical, electrical, plumbing, and fire-protection systems design for educational and medical facilities. Jerry is always ready for a new opportunity to apply his expertise with HVAC and energy systems design.
